

Just one Concept - Thousands of Uses

Jubilee® Standard Range Clips

Mild Steel Zinc Protected / 304 Stainless Steel / 316 Stainless Steel
Kitemarked to BS 5315 : 1991 and manufactured under a BS EN ISO 9001:2008 quality system accepted by the British Standards Institution. Used on most day to day requirements for joining hose in industries such as motor, general engineering, hardware etc. Jubilee stainless is used in the food industry (where a high standard of hygiene is required), the chemical industry (where corrosive acids are present) and the marine market (where salt intrusion causes high corrosion). Jubilee stainless is also Lloyd's Register Approved. Size range from 9.5 to 318mm (3/8 to 12 1/2").

Jubilee® High Torque

All Stainless Steel Construction
High Torque clips are used on heavy duty rubber and high pressure hoses. They compare in application to our Superclamp and can be tightened to twice the normal hose clip tightening torque. Ideal for high vibration applications and where the general British Standard product is not suitable. Size range from 20 to 500mm.

'O' Clips from Jubilee® with Pincers (normal and side closing)

Mild Steel Zinc Plated / 304 Stainless Steel
A medium pressure 2-ear clamp widely used for maintenance and OEM applications. The clamps are installed on air, fluid, gas and steam lines and are also suitable for low pressure hydraulic applications. The pincers are used to crimp the ears of the clamps and affect a proper seal. Size range from 3.1 to 46mm.

Jubilee® Superclamps

Mild Steel Zinc Plated / 316 Stainless Steel / 304 Stainless Steel
Heavy duty bolt clamps for use on delivery hoses and demanding applications. A single nut and bolt is used to adjust the diameter of the clamp. Size range from 17 to 265mm.

Jubilee® Juniors (Nut & Bolt Clips)

Zinc Plated Mild Steel / 304 Stainless Steel
Small nut and bolt clips used mainly in the motor trade for securing petrol pipes, heater hoses and small bore applications etc. Manufactured in zinc plated mild steel and 304 stainless steel with a standard 7mm hexagon headed screw. Size range from 7 to 20mm.

Jubilee Flexidriver® & Jubilee Clipdrivers®

High precision tools specifically designed for efficient, rapid and easy adjustment of Jubilee clips to their optimum torque. The invaluable Flexidriver with flexible shaft has been designed to reach all those awkward places while the Clipdriver has a rigid shaft and is available in two lengths (95mm & 160mm).

Jubilee® Smart Dispenser

Available in Mild Steel Zinc Protected or Stainless Steel

Increase your sales of Jubilee clips with this smart visible display, keeps your stock tidy and ready for sale. This stylish new display holds 540 Jubilee clips in both '10 boxes' and singly together with two invaluable Flexidrivers.

Jubilee® Workshop Pack

Available in Mild Steel Zinc Protected or Stainless Steel

Versatile, re-usable box; 8 compartments holding 143 assorted Jubilee mild steel clips (sizes 9.5 to 40mm).

Jubilee® Handy Pack & Clip Dispenser

Available in Mild Steel Zinc Protected or Stainless Steel

The Handy Pack (HP100) can be used as a point of sale dispenser, stores assortment pack or a mobile stock pack; it has 10 individual compartments each holding a box of 10 clips. The Clip Dispenser (CD100) is the ultimate point of sale for Jubilee clips, it holds loose clips, as well as an indispensable Flexidriver, on a strong wire frame and is easily re-stockable.

Junior Assortment Pack

Zinc Plated Mild Steel

The essential fastener pack for small bore hoses. 165 assorted Jubilee Juniors (nut and bolt clips) in a plastic re-usable box.

'O' Clip Kits from Jubilee® (with/without Pincer)

Mild Steel Zinc Plated

Flexible and convenient dispenser for the most popular size of double ear clips. The kit comes complete with/without normal closing pincer and is ideal for the user who needs to have a selection of different size clips available at all times. Holds 175 'O' clips.

Jubilee® Multiband

Mild Steel Zinc Plated & Stainless Steel

Ideal for emergency situations mainly in the heating and ventilation industries. Multiband is continuous banding which is cut to size and constructed using a housing/screw from the wide choice available. Mild steel available in 11mm width and stainless steel available in both 11mm and 7mm.
