**LQ4 Series quick disconnect couplings** provide ultra-reliable, dripless connections and disconnections that protect valuable electronics. Designed specifically for liquid cooling applications, LQ4 uses patent-pending valve technology that eliminates drips and is able to withstand long-term use.

## Features - Benefits

Non-spill design - Disconnect under pressure with no spills
Redundant sealing when connected - Extra protection from leaks
Color-coding - Instant visual difference in cooling lines
Friction-free valve - Valving system designed for extended periods in connected state
Enhanced latch design - Easy to see orientation on manifolds and tubing
Lower, ergonomic profile - Meets size requirements for space-constrained electronics

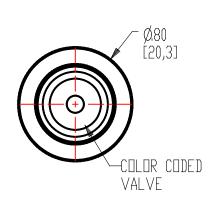

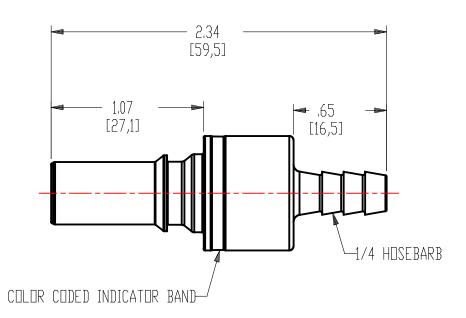

These graphs are intended to give you a general idea of the performance capabilities of each product line. Contact CPC for flow of a particular coupling combination.

## **Technical details:**

Description: 1/4" Hose Barb Valved In-Line Liquid Cooling Insert, Cool Blue

## **Materials:**

Main Components: Chrome Plated Brass

Valve: Blue Polysulfone

Valve Spring: Stainless Steel

Seals: EPDM

Others: Vinyl Protective Cap; Blue Polysulfone Indicator Band

**Standard Packaging Quantity: 10**
